single column

*Skid-clasp*  
*two-columned*  
Minimum width  
60 cm

space saving, because of the possibility of stacking

*H-clasp* adjustable in height

**Round pipe** 30 x 1.5mm  
**rectangular tube** 30 x 30 x 1.5 mm  
and 30 x 20 x 1.5 mm

Folding table with *T-clasp*, adjustable in height (optional)

Practical fittings for all uses:

## Dialog

Practical folding table with soft-PVC-border or with ABS-edge

### The perfect solution for the quick Dialog:

Our model Dialog convinces thanks to its timeless design, its slender appearance and easy handling. The stable 19 mm thick table top is delivered as a standard in the colours light beige and birch-grey (chipboard, HPL-coated). Upon demand, a delivery in other colours is also possible.

Advantage: not only available trapeze-, square-, - or rectangle-shaped, but also **circular and semi-circular**.

The model Dialog is available in all sizes between 100 and 200 cm as well as a standing height of 73 cm.

It is not possible to break the table-top by bending, as the folding table is strengthened on the underside with 2 Aluminium-T-shaped profiles.

With just one deft movement it is soon possible to create a large circle (for example: L-shaped)

## Dialog & Meeting

Two indispensable folding table systems for professional requirements

Our two robust and stable folding table systems can be used everywhere. Whether in multi-purpose halls or auditoriums, for conferences or in schools - both models can be set up and taken down with just a few deft movements requiring little strength.

Stacking blocks protect the table tops and avoid damage.

Simple to hang in

stacking block for fixing and as an aid to stacking

## Meeting

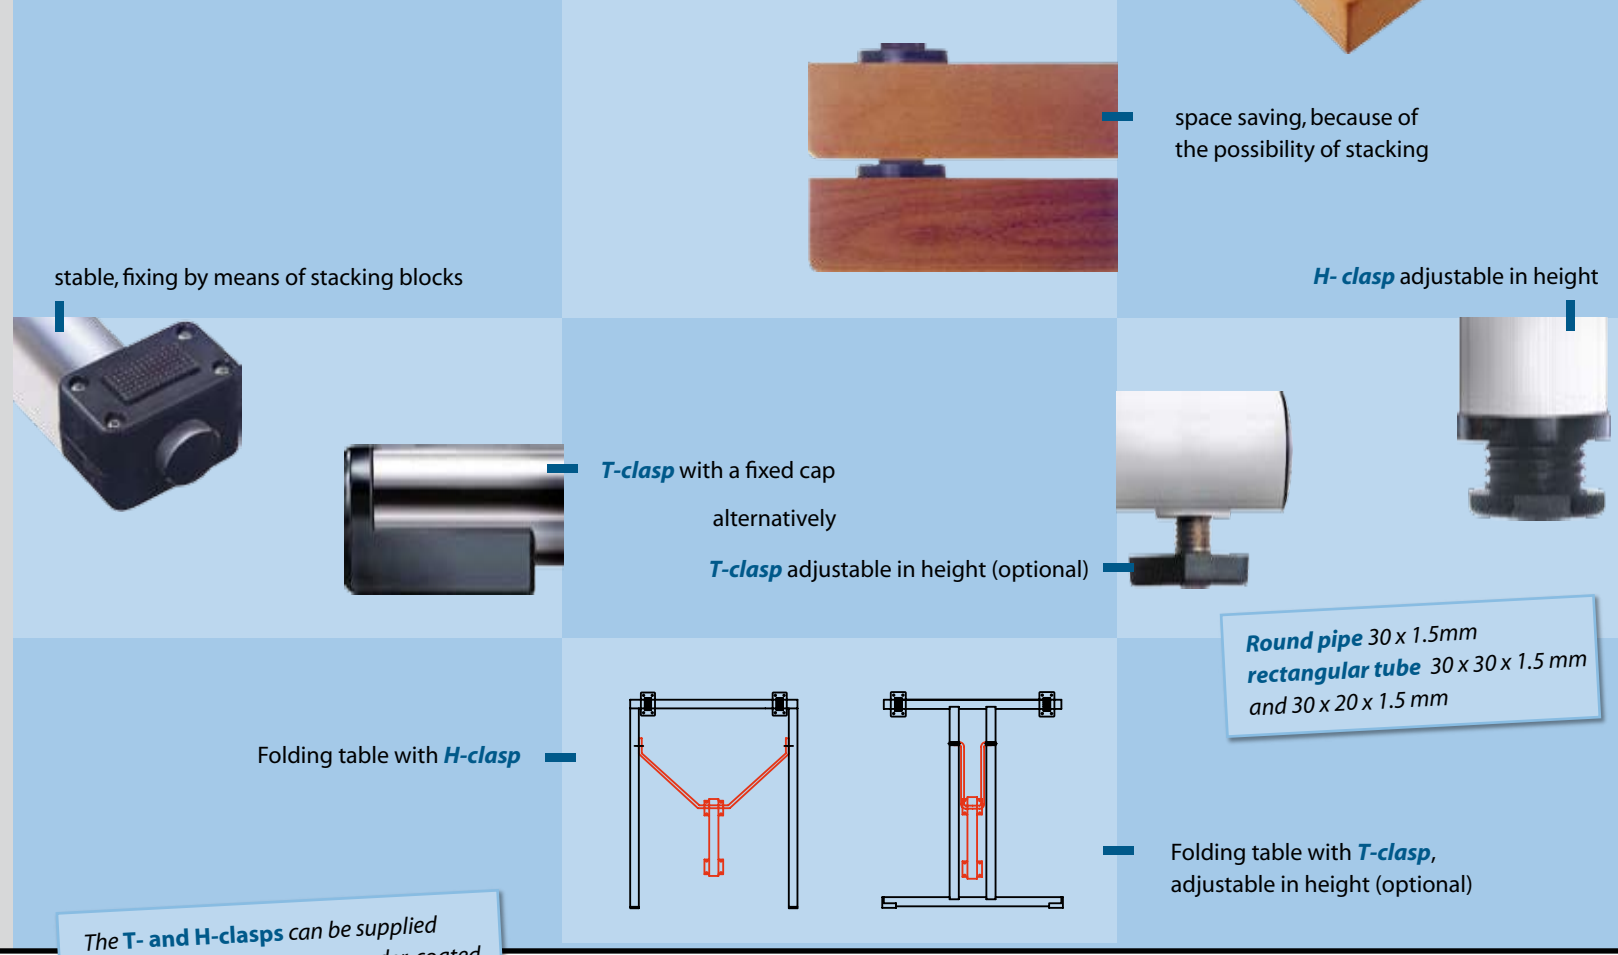

Folding table with a beech wood frame

The „Big Brother“ of the Dialog model is our folding table Meeting. Its beech wood frame 70 mm high and 20 mm thick and the optional table top in beech wood look create a pleasant atmosphere in the room. Also of a high quality: the stable clasps, chromium-plated or powder-coated.

We will be pleased to supply you with the model Meeting in the table-top design you wish, as a standard in light beige or birch grey.

Meeting is available in all sizes between 100 and 180 cm as well as a standing height of 73 cm.

Practical angled-pieces can be inserted with one deft movement.

stable, fixing by means of stacking blocks

space saving, because of the possibility of stacking

H-clasp adjustable in height

T-clasp with a fixed cap alternatively

T-clasp adjustable in height (optional)

Round pipe 30 x 1.5mm  
rectangular tube 30 x 30 x 1.5 mm  
and 30 x 20 x 1.5 mm

Folding table with H-clasp

Folding table with T-clasp, adjustable in height (optional)

The T- and H-clasps can be supplied in many different colours, powder-coated or chromium-plated.
